

Our Investment Portfolio: High Quality and Diversified

Our investment philosophy employs a bottom-up approach, which combines our strong asset management skills with an in-depth understanding of the characteristics of each investment. We are not limited to fixed income investments but rather hold a diversified blend of assets, including a variety of alternative long-duration asset classes, which provides a distinctive positioning. We use a disciplined approach across all asset classes, and we do not chase yield in the riskier end of the fixed income or alternative asset markets. This philosophy has resulted in a well-diversified, high quality investment portfolio, with excellent credit experience.
