Who are the Black Panthers?

The Black Panther Party was originally formed in 1966 as an organization of self-defense and community activism, although people within and outside of the black community didn't necessarily agree with their message and methods.

[Visit the Black Panther Wikipedia page](#) and pick three of their basic wants that you understand and support and that are still relevant today.

Making Dinner

After too much take-out, Delphine takes matters into her own hands and decides to take the money and make dinner for her and her sisters. Decide what you would make and research how much money you would have saved like she did. Since things cost more now, we'll give you \$25 instead of \$10. See if you can save more than Delphine did to call Pa!

Working Together

There are a lot of instances of people working together to get things done in this section: making signs, carting water, folding newspapers. Think of a time you worked together to get something done and how it made it easier.

Draw a picture to share with the group.
