### Discussion Questions:

- A. Grover uses a car wash to create a rainbow to send a message. Where else could they have gone? What other items could they have used?
- B. Annabeth tells Percy that Ares needs his help because he has strength but not enough brains. What other tasks can you think of that require physical strength and intelligence... not just one or the other?
- C. Percy has a lot of weird dreams. What do you think they are – premonitions? Fear? Something else?
- D. If you could pick the games in the Lotus Hotel and play them forever, what would you pick?
- E. Neried tells Percy “what belongs in the sea will always return to the sea”. What is Neried trying to tell Percy?
- F. Do you think Percy knew he would meet his father at Olympus? Would you have been nervous to meet him if he was your dad?
- G. Luke turns out not to be who Percy thought he was. Did you see that coming? What were the signs?
- H. Do you think Percy made the best decision about where to spend the summer? Or the smartest one?
