
PROJECT: GET IT DONE TOGETHER

Grocery Shopping on a Budget

In this activity, you will use your grocery list to purchase the items from the grocery store. You will need to properly calculate the total amount of the items. There is a column provided for you to keep a running total. You have $50.00 to purchase groceries; do you have enough money for everything? Don't forget to use the running total column to keep track of what you have left to spend.

- *Milk $3.59 a gallon*
- *Oranges .99¢*
