

Ages 4-7:

Do you love to draw or color? Do you have ideas about how to make the world a better place? Today, you can do both! Using paper, crayons, stickers and other fun materials that you have at home, draw a picture that shows how you would make the world a better place. For example, maybe your neighborhood, family or friends make the world better. Or maybe you wish there were more animals in the world to help make people laugh and smile. Wouldn't unicorns make the world better? Whatever your wish is for a better world, draw or create it!

Ages 8+:

Do you have ideas about how to make the world a better place? Maybe you've thought about ending hunger, putting a stop to bullying, making sure everyone has friends to play with, or building more playgrounds for outdoor fun. Or maybe you wish you could eat ice cream every day for breakfast. Express the ideas you have for a better world through a drawing, crafting, painting or other artwork. You can use paper, colored pencils, markers, or get creative with cardboard, wrapping paper or other fun materials. (Nothing fancy, anything you have around the house will do.) Whatever your wish is for a better world, draw or create it!
