Portfolio Breakdown

Asset Allocation (at Market Value)

As per the fund's Investment Policy Statement, initial subscriptions are invested in fixed 90% Bond Pool and 10% Short-Term Bond Pool. The investments of these pools consist of the following:

- Peso Bond Pool: Peso-denominated bonds of the Republic of the Philippines and term deposits.
- Short Term Bond Pool: Peso-denominated bonds of the Republic of the Philippines with a term of up to three years and term deposits.

Peso Bond Fund

Market Review

The higher bond yield trend continued in September as local government securities traded an average of 74bps higher across the curve on the back of the generally hawkish rhetoric from the Bangko Sentral ng Pilipinas (BSP) and the US FED.

Outlook

Year to date, the Monetary Board of the BSP has hiked policy rates by a total of 225 bps versus the US FED's 300 bps, bringing the respective rates at 4.25% and 3.25%. With recent Fed dot plots pointing to another 125bps of hikes for the remainder of the year, we can expect the BSP to hike by at least an additional 75-100bps. Against this backdrop, we will generally keep an overall shorter duration positioning vis-à-vis the benchmark. We plan to keep an underweight position on the short end due to the expected BSP rate hikes, while opportunistically looking to add duration at the current attractive levels.

The investment fund option for The Manufacturers Life Insurance Company's variable life insurance product is managed by Manulife Investment Management and Trust Corporation.

The Fund mentioned in this document is specific to variable life insurance contracts and is not considered a mutual fund. Yields depend on interest and foreign exchange rate levels, both of which may fluctuate. Other factors that affect yield include changes in the credit standing of the issuers and changes in the value of the stocks and dividends received. Further, investments of the Fund may provide that their values be determined based on prices or yields of other securities, instruments or foreign currencies, and such provisions may result in negative fluctuations in the value of these investments and, in turn, the Fund's yields. Thus, the performance of the separate account(s) is not guaranteed and the value of the policy could be less than the capital invested. THE VARIABLE LIFE POLICYHOLDER SHALL BEAR ALL INVESTMENT RISKS. Past performance of the Fund is not necessarily indicative of future performance. Yields are not guaranteed.
