**Investment Objective and Strategy**

The Fund is an equity UITF structured as a feeder fund that aims to maximize total return by investing all or substantially all of its assets in a collective investment scheme (CIS), the Target Fund. The Target Fund aims to achieve capital growth by investing at least two-thirds of its total assets in listed equity securities of companies that contribute to the reduction of carbon emissions. The investment universe is not limited to a specific geographic region (including emerging countries). The Target Fund also applies a sustainable strategy which aims to achieve a positive environmental and social impact by investing at least two-thirds of its total assets in companies supporting the structural change towards a sustainable, low-carbon economy, helping to reduce greenhouse gas emissions and air pollution. The Target Fund is the Pictet Clean Energy Fund.

**Client Suitability**

A client profiling process should be performed prior to participating in the Fund to guide prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest. The Manulife Global Clean Energy Equity Feeder Fund is suitable for investors who are at least classified as aggressive based on their risk profile. To minimize risk and maximize returns, investors are recommended to stay invested in the Fund for at least five (5) years.

**Key Risks and Risk Management**

*You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks. For a more comprehensive list of risks, please refer to the Risk Disclosure Statement.*

**Price Risk:** The possibility for an investor to experience losses due to changes in market prices of securities.

**Liquidity Risk:** The possibility for an investor to experience losses due to inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a loss.

**Credit Risk:** The possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner. Investors may be exposed to higher degree of credit risk due to possible indirect holdings in below investment grade securities.

**Reinvestment Risk:** The possibility of having lower returns or earnings when maturing funds or the interest earnings of funds are reinvested.

**Interest Rate Risk:** The possibility for an investor to experience losses due to changes in interest rates.

**Foreign Exchange Risk:** This is the possibility for an investor to experience losses due to fluctuations in foreign exchange rates.

**Sustainability Risk:** The risk arising from any environmental, social or governance (ESG) events or conditions that, were they to occur, could cause a material negative impact on the value of the investment.

#### Outlook and Strategy

Amidst challenging macro conditions, the outlook for the clean energy transition continues to remain strong as key fundamental drivers remain in place. Rapid technology innovation will allow even greater electrification of transport, buildings and factories while solar and wind will be the major sources of this new electricity supply based on cost competitiveness. Increasing awareness, technological innovation and rapidly declining costs, together with legislation increasingly fighting air pollution and climate change, lead to multiple inflection points.

#### Investment Policy / Prospective Investment

The Fund shall invest at least 90% of its assets in the Target Fund. The investment in the Target Fund shall not exceed 10% of the total net asset value of the Target Fund. The portion of the Fund that is not invested in the Target Fund, which shall not exceed 10% of the assets of the Fund, may be invested and/or reinvested in deposit products. The Target Fund invests mainly in companies whose significant proportion of their activities are related to, but not limited to, renewable energy, technologies that reduce CO2 emissions or energy consumption. The Target Fund also integrates ESG factors based on proprietary and third-party research to evaluate investment risks and opportunities as well as applies an exclusion policy relating to direct investment in companies and countries.

#### Related Party Transactions

The Fund currently has no investment with the Trustee's related parties. Subject to the approval of the Manulife Investment Management and Trust Corporation (Manulife IM (Philippines)) Board of Directors, all related party transactions will be conducted on an arm's length and best execution basis and within the approved limits.
