This Declaration of Trust is executed by **MANULIFE INVESTMENT MANAGEMENT AND TRUST CORPORATION (“MANULIFE INVESTMENT MANAGEMENT”)**, a corporation duly organized and existing under and by virtue of the laws of the Republic of the Philippines, with principal office at the NEX Tower, 6786 Ayala Avenue, Makati City, with authority to perform trust and other fiduciary functions, herein referred to as the “Trustee”;

WITNESSETH:

**ARTICLE I
CREATION OF THE TRUST**

That for the purpose of providing investment opportunities to its trust clients pursuant to investment objectives and policies herein stipulated, the Trustee hereby establishes and declares itself as Trustee of a multi-class unit investment trust fund (UITF) for the collective investment of funds held by it in the capacity of Trustee under the terms and conditions herein below set forth.

**ARTICLE II
NATURE AND INVESTMENT OBJECTIVES**

Sec. 1 Title of the Fund – The pooled fund shall be known as the MANULIFE GLOBAL SEMICONDUCTOR OPPORTUNITIES EQUITY FEEDER FUND (herein referred to as the “Fund”).

Sec. 2 Nature of the Fund – The Fund is an equity UITF structured as a multi-class feeder fund and established in accordance with and shall be operated subject to the stipulations of this declaration and as the same may be amended from time to time in accordance with the regulations issued by the Bangko Sentral ng Pilipinas (the “BSP”) and to existing laws.

As a feeder fund, the Fund shall invest at least 90% of its assets in a Target Fund. Further, the investments in the Target Fund shall not exceed 10% of the total net asset value of all share classes of the Target Fund. The investment objective of the Target Fund shall be similar to that of the Fund.

To promote operational efficiency and to eliminate the need to create separate UITFs with different fee structures but with the same objectives and strategies, the Fund offers investors access to the multi-class UITF. Each class may be subject to different conditions including, but not limited to, trustee fees and expenses, amount of minimum subscription, the minimum holding period, charges and target participants. The details of the different share classes of the Fund are specified in Appendix I.

The Fund shall be treated as an entity separate and distinct from its constituent assets and from the contributions of the participations thereto and from other trust accounts administered by the Trustee.

Title to Assets of the Fund - All assets of the Fund shall, at all times, be considered as assets held by the Trustee vested solely in the Trustee.

Nature of Participant's Interest in the Fund – No Participant shall have or be deemed to have any ownership or interest in any particular account, investment or asset of the Fund but shall have only its proportionate and undivided beneficial interest in the Fund as a whole.

Relationship of Trustee with the Fund – The Trustee shall not have any other relationship with the Fund except in its capacity as Trustee thereof. Provided, however, that the Trustee which simultaneously administers the trust, fiduciary, or investment management funds may invest such funds in the Fund, if allowed under a policy approved by its Board of Directors.

Description of the Fund – The features of the Fund shall be described in **Appendix I** which is attached hereto and made an integral part hereof.

Sec. 3 Investment Objectives and Policy – The assets of the Fund shall be invested in the Target Fund and in other investment outlets described/specified in **Appendix I** hereof and shall be held and disposed of in accordance with such investment objectives and policies as likewise specified in **Appendix I**.

The Trustee shall make available to all Participants a list of prospective and outstanding investment outlets which shall be updated at least quarterly. Such disclosure shall be in the form prescribed under Appendix Q-33 of Section 414-Q of the Manual of Regulations for Non-Bank Financial Institutions (the Key Information and Investment Disclosure Statement or KIIDS). The Trustee shall also make available to all Participants all relevant information about the Target Fund, which at a minimum shall include: (i) fund manager; (ii) latest available outstanding investments of the Target Fund; (iii) fund objectives; (iv) NAV/NAVPu; (v) historical performance; and (vi) total expense ratio.

ARTICLE III PARTICIPATION: ADMISSION & REDEMPTION

Sec. 1 Qualified Participant (Requirements and Restrictions) – Prior to acceptance of the initial participation in the Fund, the Trustee or its duly authorized representative shall perform a Client Suitability Assessment (CSA) for the purpose of profiling the risk return orientation and suitability of the client to the Fund. The Fund is suitable for investors with aggressive risk profile.

Participation in the Fund shall be open to Participants with legal capacity to contract and subject to the other conditions, rules or procedures stipulated in **Appendix I** hereto and those stipulated by the Trustee which it deems to be advantageous or to the best interest of the Fund.

Sec. 2 Participation Units – Participation in the Fund shall always be through participation in units of the Fund and each unit shall have uniform rights and privileges as any other unit. In the case of multi-class fund, units shall be issued as units in a class of fund. The beneficial interest of each participation unit shall be determined under the unitized net asset value per unit (NAVPu) valuation methodology defined herein and no participation shall be admitted to, or redeemed from, the Fund or class of a Fund, except on the basis of such valuation and in such frequency as indicated in **Appendix I** hereto.

ARTICLE IV MANNER OF OPERATION

- Sec. 1 Pooled Fund Accounting – The total assets and accountabilities of the Fund shall be accounted for as a single account referred to as pooled-fund accounting method. The investments of a multi-class fund shall remain as one pool and are not separately allocated to classes.
- Sec. 2 Distribution Channel – The Fund shall be distributed exclusively in distribution channels duly authorized by the Trustee and allowed under existing regulations.
- Sec. 3 Expansion and Contraction of Fund – Admissions of participations in the Fund shall serve to expand the Fund's total outstanding units. Conversely redemption of participation/s from the Fund shall serve to contract the Fund's outstanding units.

Every participation in the Fund shall be evidenced by a subscription of units arrived at by dividing the amount of investment by the applicable NAVpu. On the other hand, every redemption of participation/s from the Fund shall be evidenced by a redemption of units arrived at by dividing the amount of redemption by the applicable NAVpu.

- Sec. 4 Allocation and Distribution of Income – The market value of the Fund's investments, net of taxes, fees and expenses which are chargeable against the Fund shall be reflected in every net asset value (NAV) computation. The income of the Fund, therefore, shall be allocated to the Participants on a pro rata and pari-passu basis depending on the number of units held by each Participant in the Fund. The unrealized income/loss of each Participant in the Fund shall be the difference between the prevailing NAVPu over the acquisition cost of the Participant's units, multiplied by the number of units held by the Participant. The actual distribution or realization of income shall take place every time redemption of units from the Fund is made, to the extent of the number of units redeemed.

ARTICLE V VALUATION OF THE FUND AND PARTICIPATION UNITS

- Sec. 1 Valuation of the Fund – The Trustee's Fund Administrator (the "Fund Administrator") shall compute the NAV of the Fund daily subject to the following rules:
- (a) On "Valuation Day" which shall mean a trading day where the Fund is made available for admission or redemption, the Trustee shall determine the NAV of the Fund.
 - (b) The NAV shall be the summation of the market value of each investment of the Fund less fees, applicable taxes, and other qualified expense as defined herein. The determination of market value of the investments of the Fund shall be in accordance with existing BSP rules and regulations on marking to market valuation of investment instruments more specifically described in **Appendix I** hereof.
- Sec. 2 Valuation of Participation in Units – The valuation of participation in units shall be subject to the following rules:
- (a) The NAVPu shall be determined daily by dividing the NAV of the Fund by the total number of units outstanding as of Valuation Date.
 - (b) The Trustee shall cause the publication of the NAVpu of all the unit classes of the Fund at least weekly in one or more newspaper of national circulation. The daily NAVPu, as well as the historical NAVPus, shall be available in the Trustee's website. The presentation of historical

NAVPus/performance is for reference purposes only and is not a guarantee of future or similar result.

Sec. 3 Fees and Expenses of the Fund –

- (a) **Trustee's Fees** – The Trustee shall charge against the Fund regular trust fees in the percentage indicated in **Appendix I** hereto on a per annum basis based on the NAV of the Fund as its compensation for the administration and management of the Fund. These fees shall accrue and shall be collectible from the Fund, as and when the same becomes due, at such times as indicated in **Appendix I**. The trust fees shall be uniformly applied to all Participants of the following share classes of the Fund: the USD Share Class A and the PHP-Unhedged Share Class A. Said fee may be increased or decreased in the future as may be warranted by circumstances then existing, subject to the requirements under the *Plan rules* Section 414-Q of the Manual of Regulations for Non-Bank Financial Institutions. In the event the trust fees are changed, such change shall be charged prospectively. The USD Share Class I and PHP-Unhedged Share Class I are zero fee share classes. The trust fee for Participants in the USD Share Class I and PHP-Unhedged Share Class I is charged at the bespoke (segregated) account level based on their respective Trust Agreement and/or Investment Management Agreement with the Trustee.
- (b) **Special Expenses** – The Trustee may charge the Fund for special expenses if the same is necessary to preserve or enhance the value of the Fund. Such special expenses shall be payable to pertinent third party or parties covered by separate contract/s, and disclosed to the Participants in the KIIDS.
- (c) **Collection of Fees from Target Fund or Target Fund Manager** – Investor funds may collect trust fees from Target Funds or its fund managers either in the form of rebates of management fees or in the form of marketing expense of the Target Fund, that redounds to the investor fund. Appropriate disclosures shall be made by the Trustee to the investors on the collection of trust fees from the target funds whether in the form of rebates or marketing expenses.

APPENDIX I

MANULIFE GLOBAL SEMICONDUCTOR OPPORTUNITIES EQUITY FEEDER FUND A Multi-Class Unit Investment Trust Fund

FUND SPECIFICATIONS

1. Investment Objective

- (a) The Fund is an equity UITF structured as a feeder fund that aims to maximize total return by investing all or substantially all of its assets in a collective investment scheme (CIS), the Target Fund. The Target Fund aims to achieve capital appreciation by investing at least 70% of its net assets in equity and equity related securities of companies in the semiconductor and semiconductor-related industries, listed globally (including in emerging markets from time to time), including, but not limited to, common stocks and depositary receipts. The business of these companies will include, but are not limited to, development and production of semiconductors and related equipment and components, as well as the direct downstream beneficiaries of advancements within the semiconductor industry.

The Target Fund is the Manulife Global Fund Global Semiconductor Opportunities Fund. The Fund will be invested in the I3 Share Class of the Target Fund. The details of the Target Fund are shown in Appendix III.

Pursuant to existing BSP rules and regulations, as a feeder fund, the Fund is mandated to invest at least 90% of its assets in the Target Fund.

- (b) Benchmark. The Fund uses the Manulife Global Fund Global Semiconductor Opportunities Fund as a benchmark for performance comparison. The benchmark is the Target Fund. The strategy and objectives of the Fund do not allow the Fund to hold assets other than units of the Target Fund and ancillary liquid assets. Furthermore, the characteristics of the Fund do not significantly differ from those of the Target Fund.

2. Investment Policy

The Fund shall invest at least 90% of its assets in the Target Fund. The investment in the Target Fund shall not exceed 10% of the total net asset value of the Target Fund.

The portion of the Fund that is not invested in the Target Fund, which shall not exceed 10% of the assets of the Fund, may be invested and/or reinvested in deposit products.

In case the Fund is switching from one Target Fund to another Target Fund, the portion of the Fund not invested in the Target Fund may exceed the said 10% limit.

The Fund may avail itself of financial derivative instruments solely for the purpose of hedging risk exposures of its existing investments provided these are disclosed to Participants, are accounted for in accordance with existing BSP hedging guidelines as well as the Trustee's risk management and hedging policies duly approved by the Board of Directors and all the requirements for hedging transactions under Philippine Accounting Standards (PAS) are observed. The risk exposures include those enumerated in the Risk Disclosure Statement of the Trustee's UITFs.

(a) Exposure Limit

The 15% single exposure limit shall be applied on the Target Fund's underlying investments. Notwithstanding said limit, if the Target Fund is allowed by its respective regulatory authority to

invest in units/shares of other open-ended CIS, the exposure limit prescribed by said regulatory authority shall instead apply. Furthermore, the investments in the Target Fund shall not exceed 10% of the total net asset value of the Target Fund. In case the limit is breached due to the marking-to-market of certain investment/s or any extraordinary circumstances, e.g. abnormal redemptions which are beyond the control of the Trustee, the Trustee shall be given thirty (30) days from the date of receipt of report indicating the net asset value of the fund to correct the same. In case of such an event, the Fund may hold more than 10% of its assets in cash and cash equivalents, and/or other allowable investments for UITFs under BSP regulations while in the process of divesting the excess investment over the 10% exposure limit to the Target Fund and/or switching to another Target Fund.

(b) Counterparties

The Fund may invest in a target fund that is administered by the Trustee or its related party/company, provided, that: (i) there shall be no cross-holding between the investor fund and the target fund, where cross-holding refers to the holding of shares/units of participation in one another by two (2) or more funds; (ii) all initial charges on the target fund are waived; and (iii) the trust/management fee shall be charges only once, either at the level of the investor fund or at the level of the target fund.

3. **Qualified Participants** - Participation in the Fund shall be open to all persons with legal capacity to enter into contracts except those who are considered United States (US) Persons under applicable US laws and regulations. Acceptance of Participants shall be subject to the rules or procedures established by the Trustee which it deems advantageous or to the best interest of the Fund. The Fund is suitable for investors with an aggressive risk profile. In order to minimize risks and maximize returns, the Participants are recommended to stay invested in the Fund for more than five (5) years.
4. **Structure** – To promote operational efficiency and to eliminate the need to create separate UITFs with different fee structures but with the same objectives and strategies, the Fund offers investors access to the multi-class UITF. Each class may be subject to different conditions including, but not limited to, trustee fees and expenses, amount of minimum subscription, the minimum holding period, charges and target participants.

Available share classes:

- USD Share Class I. This share class is available for investment only by institutional investors with bespoke (segregated) accounts managed by the Trustee. Share Class I is a zero management fee share class as the management fee of the Trustee is charged at the bespoke account level.
 - USD Share Class A (base currency). This share class is available for investment by retail investors that prefer investment in the USD share class but are not eligible to invest in the USD share class I.
 - PHP-Unhedged Share Class A. This share class is available for investment by retail investors that prefer investment in the PHP-Unhedged share class but are not eligible to invest in the PHP-Unhedged share class I. This share class shall provide a return equal to the USD share class A plus or minus the foreign exchange movement of US Dollar relative to the Philippine peso.
 - PHP-Unhedged Share Class I. This share class is available for investment only by institutional investors with bespoke (segregated) accounts managed by the Trustee. Share Class I is a zero management fee share class as the management fee of the Trustee is charged at the bespoke account level. This share class shall provide a return equal to the USD share class I plus or minus the foreign exchange movement of US Dollar relative to the Philippine peso.
5. **Rules Related to Valuation** - The matter of determining the value of the various instruments in the Fund shall be vested in the Trustee through its Board of Directors. Subject to pertinent BSP Implementing Rules and Regulations, the Trustee shall adopt a Marked-to-Market Valuation

Methodology which, once adopted, shall herewith be consistently and strictly applied. The basis for pricing/valuation per asset class/asset shall follow existing BSP marking-to-market guidelines¹, such that for equity securities listed in the stock exchange traded in the Philippines, reference shall be same day closing price at the Philippine Stock Exchange; and for equity securities traded abroad, reference shall be the latest available closing price from the exchange where the securities are traded. For the Target Fund, the reference shall be the applicable NAV per share, which is accessible in the morning of the next business day.

- (a) The NAV of the Fund shall be computed using the pooled-fund accounting methodology, or more specifically based on the following formula:

	Cash Deposits	
+	Market Value of Investment	
+	Accrued Interest on Cash Deposits	
+	<u>All other assets and receivables</u>	
	GROSS ASSET VALUE	
-	Accrued Taxes Payable	
-	Other Accrued Expenses	
-	Accounts Payable	
-	<u>All Other Liabilities</u>	
	NET ASSET VALUE GROSS OF TRUST FEES	

The NAVPu of each class shall be computed by dividing total net assets of a class by the total outstanding units of such class; where, the net assets of each class shall represent its proportionate share on the net assets of the Fund less the trustee fee and any other expenses attributable to that class. The NAVPu for each Share Class shall be computed up to four (4) decimal places as follows:

USD SHARE CLASS I

Total Net Assets of USD Share Class I

Outstanding Units of USD Share Class I

USD SHARE CLASS A

Total Net Assets of USD Share Class A
- Trust fee

Outstanding Units of USD Share Class A

PHP-UNHEDGED SHARE CLASS A (NAVPU is in PHP)

Total Net Assets of PHP – Unhedged Share Class A*
- Trust fee

Outstanding Units of PHP – Unhedged Share Class A

x USD/PHP FX reference rate

PHP-UNHEDGED SHARE CLASS I (NAVPU is in PHP)

Total Net Assets of PHP – Unhedged Share Class I*

Outstanding Units of PHP – Unhedged Share Class I

x USD/PHP FX reference rate

*There are no adjustments for FX gains/losses because there are no FX forwards to hedge the impact of FX exchange rate movements.

¹ The Trustee shall adopt a Marked-to-Market Valuation Methodology that is consistent with BSP’s guidelines as shown in Sec. 414-Q “Allowable Investments and Valuation” and Appendix Q-23 “Marking to Market Guidelines for Investments in Debt and Equity Securities” of the Manual of Regulations for Non-Bank Financial Institution (MORNBFI).

For an illustration of the computation of the NAVPu across the different share classes, please refer to Appendix II.

- (b) The NAVPu of the Fund shall be computed daily and made available not later than 6:00PM of the next business day. The NAVPu shall be made available to Participants upon request. The daily NAVPu, as well as historical NAVPus, shall be also made available in the Trustee's website.
- (c) Suspension of Trading – The Trustee of the Fund may temporarily suspend calculation of the NAV/NAVPu of the Fund, as well as admission to and redemption from the Fund, if it is unable to determine the NAVPu of the Fund due to the suspension of trading of its securities or any fortuitous event, such as fire, natural calamity, public disorder, or national emergency affecting the financial market resulting in the suspension of trading and consequently, the absence of available market prices of securities/instruments.

- (b) Overall impact of fees and charges imposed by the Target Fund on the cost of investing in the Fund

Since there is no double-charging of fees, as the Fund will invest in the institutional zero-fee share class or I3 share class of the Target Fund, there is no impact on the fees and charges to the Fund due to the feeder fund structure or layered investment structure of the Fund.

However, in the event that the Trustee decides to switch out from the Target Fund into another Target Fund, the Switching Charge of up to 1% of the Net Asset Value (of the shares being switched) will effectively increase the fees and charges to the Fund due to the feeder fund structure or layered investment structure of the Fund.

- (b) **Interest Rate Risk** - This is the possibility for an investor to experience losses due to changes in interest rates. The purchase and sale of a debt instrument may result in profit or loss because the value of a debt instrument changes inversely with prevailing interest rates.
- (c) **Liquidity Risk** - This is the possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a loss. These may be caused by different reasons such as trading in securities with small or few outstanding issues, absence of buyers, limited buy/sell activity or underdeveloped capital market.
- (d) **Credit/Default Risk** - This is the possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans, or other forms of security which the borrower issued.
- (e) **Reinvestment Risk** - This is the risk associated with the possibility of having lower returns or earnings when maturing funds or the interest earnings of funds are reinvested.

The PHP – Unhedged Share Class A and PHP – Unhedged Share Class I allows subscriptions in PHP but without any currency hedging between the PHP and the USD, which is the base currency of the Fund. Thus, participants in the PHP – Unhedged Share Class A and PHP – Unhedged Share Class I are fully exposed to fluctuations in the USD/PHP exchange rate.

Specific Risk Factors	<p>In addition to the general risk factors in Item no. 11 of Appendix I, please also refer to the following specific risk factors as further set out therein:</p> <p>Semiconductor Industry Risk – The Target Fund invests in companies in the semiconductor and semiconductor-related industries, which may particularly be affected by the intense competition in such industries</p> <p>Concentration Risk – The Target Fund’s investments are concentrated in semiconductor and semiconductor-related industries and may also concentrate in securities of issuers related to the United States. The value of the Target Fund may be more volatile than that of a fund having a more diverse portfolio of investments, and may be more susceptible to adverse events in, or affecting, such industries and geographical region.</p> <p>Small-Cap/Mid-Cap Risks – Investments in securities of small and medium sized companies may involve greater risk than is customarily associated with investment in larger and more established companies. In particular, smaller companies often have limited product lines, markets or financial resources, with less research information available about the company, and their management may be dependent on a few key individuals.</p> <p>Liquidity and Volatility Risks – The Target Fund may invest in securities of companies or markets that are subject to higher volatility and lower liquidity as compared with more developed companies or markets. These securities may often experience significant price volatility and potential lack of liquidity due to their low trading volume. The absence of adequate liquidity may also arise when particular securities are difficult to sell at the desired moment during particular periods or in particular market conditions.</p> <p>Taxation Risk – The Target Fund may invest in securities that produce income that is subject to withholding and/or income tax. Such tax may have an adverse effect on the Target Fund. Shareholders and potential investors are advised to consult their professional advisers concerning possible taxation or other consequences of subscribing, holding, selling, switching or otherwise disposing of Shares in the Target Funds.</p> <p>FDIs Risks – The Target Fund may use FDIs for efficient portfolio management and hedging purposes. Although the use of FDIs in general may be beneficial or advantageous, such use of FDIs exposes the Target Fund to additional risks, including but not limited to management risk, market risk, credit risk, and liquidity risk.</p>

	<p>Currency Risks – The Target Fund’s assets may be invested primarily in securities denominated in currencies other than the base currency of the Target Fund, U.S. Dollars, and Classes of Shares may be designated in a currency other than the base currency of the Target Fund. The Target Fund may receive income or realization proceeds from these investments in those currencies, some of which may fall in value against U.S. Dollars.</p> <p>Emerging Market Risks – In respect of certain emerging economies or markets in which the Target Fund may invest, it may be exposed to higher risks than in developed economies or markets, in particular for the acts or omissions of its service providers, agents, correspondents or delegates. Accounting, auditing and financial reporting standards, practices and disclosure requirements applicable to some companies in the emerging economies or markets in which the Target Fund may invest may differ from countries with more developed financial markets. The value of the Target Fund’s assets may also be affected by uncertainties such as changes in government policies, taxation legislation, currency repatriation restrictions and other developments in politics, law or regulations of the emerging economies or markets in which the Target Fund may invest. Further, certain emerging economies are exposed to the risks of high inflation and interest rates, large amount of external debt; and such factors may affect the overall economy stability.</p>
