Investment Objective and Strategy

The Fund is an equity UITF structured as a feeder fund that aims to maximize total return by investing all or substantially all of its assets in a collective investment scheme (CIS), the Target Fund. The Target Fund aims to achieve capital appreciation by investing at least 70% of its net assets in equity and equity related securities of companies in the semiconductor and semiconductor-related industries, listed globally.

Client Suitability

A client profiling process should be performed prior to participating in the Fund to guide prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest. The Manulife Global Semiconductor Opportunities Equity Feeder Fund is suitable for investors who are at least classified as aggressive based on their risk profile. To minimize risk and maximize returns, investors are recommended to stay invested for at least five (5) years.

Key Risks and Risk Management

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks. For a more comprehensive list of risks, please refer to the Risk Disclosure Statement.

Outlook and Strategy

The Fund manager remains positive on sustained spending on AI. Capital is broadening out across the industry to benefit more than just the well-known mega-cap leaders. The investment team is also seeing early signs of a general, broad-based recovery in semiconductors spending. Importantly, geopolitical concerns are continuing to lessen. The Fund is positioned to benefit from these positive developments.

Investment Policy / Prospective Investment
