Investment Strategy	
• The Fund will achieve its investment objective by investing all or substantially all of its assets into Fundsmith SICAV – Fundsmith Equity Fund ("**FS-FEF**"), a sub-fund of Fundsmith SICAV. Fundsmith SICAV is constituted in Luxembourg. • FS-FEF aims to achieve long term growth in value. FS-FEF will invest in equities on a global basis and will be a long-term investor in its chosen stocks. FS-FEF will not adopt short-term trading strategies. FS-FEF has stringent investment criteria which the Investment Manager adheres to in selecting securities for FS-FEF's investment portfolio. • The Fund may employ derivatives for the purpose of hedging. FS-FEF will not employ derivatives.	Refer to "Investment Focus and Approach of MFEF" in Schedule 12 of the Prospectus for further information on the investment strategy of the product.
Parties Involved	
WHO ARE YOU INVESTING WITH? • The Fund is a sub-fund of the Manulife Funds, which is constituted in Singapore. • The Manager of the Fund is Manulife Investment Management (Singapore) Pte. Ltd. • The Trustee of the Fund is HSBC Institutional Trust Services (Singapore) Limited. • The Custodian of the Fund is The Hongkong and Shanghai Banking Corporation Limited.	Refer to "Basic Information", "The Manager" and "The Trustee and Custodian" and the "Sub-Manager of the Sub-Fund" in Schedule 12 of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.
KEY RISKS	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? **The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**	Refer to "Risks" and "Specific Risks of Investments in MFEF" in Schedule 12 of the Prospectus for further information.
Market and Credit Risks	
• **You are exposed to securities risk.** Investment in securities in different markets is subject to general market, political and economic conditions and the value of securities fluctuate in response to the activities and performance results of the companies invested into. • **You are exposed to interest rate and credit risk.** When interest rates rise on certain currencies that the bonds are denominated in, the value of the bonds may reduce, resulting in a lower value for the relevant portfolio. The Fund is also exposed to the risk that a corporate issuer will default or that negative perceptions of the issuer's ability to make such payments will cause the price of that bond to decline. • **You are exposed to currency risk.** The base currency of the Fund is not denominated in Singapore Dollars, and the investments (including the FS-FEF) and income of the Fund may be denominated in a number of different currencies other than the base currency of the Fund (or the Units thereof) and will thus be subject to fluctuations in currency exchange rates if the Manager or the Sub-Manager does not hedge the foreign currency exposure, and in certain cases, exchange controls regulations.	

Liquidity Risks

- **You can realise your Units only on Dealing Days.** All realisation requests may only be made on Dealing Days to the Manager.
- **Your realisation request may be deferred or realisation may be suspended.** There may be a 10% limit on the total number of Units that can be realised on a Dealing Day. Your right to realise Units may be temporarily suspended under certain circumstances.

Product-Specific Risks

- **You are exposed to concentration risk.** FS-FEF's investment approach is to invest in a relatively small number of securities. This may result in portfolio concentration in sectors, countries, or other groupings. These potential concentrations mean that a loss arising in a single investment may cause a proportionately greater loss to the Fund than if a larger number of investments were made.
- **You are exposed to political and/or environmental risks.** The investee companies may operate in countries where the ownership rights may be uncertain and development of the resources of investee companies may be subject to disruption due to factors including civil disturbances, industrial action, interruption of power supplies, as well as adverse climatic conditions.
